CONTENTS OF VOLUME 10

NUMBER 1

Articles

D. BANKS, C. REIMANN, O. RØYSET, H. SKARPHAGEN and O. MAGNE SÆTHER: Natural concentrations of major and trace elements in some Norwegian bedrock groundwaters 1

K. G. KNAUSS and S. A. COPENHAVER: The effect of malonate on the dissolution kinetics of albite, quartz, and microcline as a function of pH at 70°C 17

S. TERASHIMA, S. NAKAO, N. MITA, Y. INOUCHI and A. NISHIMURA: Geochemical behavior of Au in terrigenous and pelagic marine sediments 35

P. LAHERMO, J. MANNIO and T. TARVAINEN: The hydrogeochemical comparison of streams and lakes in Finland 45

I. HUTCHEON, M. SHEVALIER, C. NAHNYBIDA and H. R. KROUSE: Chemical and isotopic examination of produced waters from the BP-Wolf Lake *in situ* combustion pilot 65

H. M. LIDIARD: Iodine in the reclaimed upland soils of a farm in the Exmoor National Park, Devon, U.K. and its impact on livestock health 85

J. RIDGWAY, D. M. A. FLIGHT, B. MARTINY, A. GOMEZ-CABALLERO, C. MACIAS-ROMO and K. GREALLY: Overbank sediments from central Mexico: an evaluation of their use in regional geochemical mapping and in studies of contamination from modern and historical mining 97

C. MIZOTA: Oxygen isotopic variations in soil quartz developed on rhyolite residuum from Kiso, central Japan 111

Erratum 115

Announcement I

IAGC application form III

NUMBER 2

Articles

M.-J. TURRERO, P. GÓMEZ, L. PÉREZ DEL VILLAR, V. MOULIN, M.-C. MAGONTHIER and M. T. MENAGER: Relation between colloid composition and the environment of their formation: application to the El Berrocal site (Spain) 119

R. A. ZIELINSKI, S. ASHER-BOLINDER and A. L. MEIER: Uraniferous waters of the Arkansas River valley, Colorado, U.S.A.: a function of geology and land use 133

V. MICHEL, P. ILDEFONSE and G. MORIN: Chemical and structural changes in *Cervus elaphus* tooth enamels during fossilization (Lazaret cave): a combined IR and XRD Rietveld analysis 145

B. MAYER, P. FRITZ, J. PRIETZEL and H. R. KROUSE: The use of stable sulfur and oxygen isotope ratios for interpreting the mobility of sulfate in aerobic forest soils 161

D. E. BUCKLEY, J. N. SMITH and G. V. WINTERS: Accumulation of contaminant metals in marine sediments of Halifax Harbour, Nova Scotia: environmental factors and historical trends 175

A. DÜKER, A. LEDIN, S. KARLSSON and B. ALLARD: Adsorption of zinc on colloidal (hydr)oxides of Si, Al and Fe in the presence of a fulvic acid 197

K. HEIKKINEN, R. IHME and E. LAKSO: Contribution of cation exchange property of overflow wetland peat to removal of NH_4^+ discharged from some Finnish peat mines 207

M. A. ARMIENTA and S. DE LA CRUZ-REYNA: Some hydro-geochemical fluctuations observed in Mexico related to volcanic activity 215

R. L. R. CHANDRAJITH, M. OKUMURA and H. HASHITANI: Human influence on the Hg pollution in Lake Jinzai, Japan 229

R. J. BOWELL and I. BRUCE: Geochemistry of iron ochres and mine waters from Levant Mine, Cornwall 237

Book Review
J. S. SMALL: Geofluids: Origin, Migration and Evolution of Fluids in Sedimentary Basins 251

NUMBER 3

Articles

L. M. PETRIE: Molecular interpretation for SO_2 dissolution kinetics of pyrolusite, manganite and hematite 253

O. VIDAL, M.-C. MAGONTHIER, V. JOANNY and M. CREACH: Partitioning of La between solid and solution during the ageing of Si–Al–Fe–La–Ca gels under simulated near-field conditions of nuclear waste disposal 269

B. A. KIMBALL, E. CALLENDER and E. V. AXTMANN: Effects of colloids on metal transport in a river receiving acid mine drainage, upper Arkansas River, Colorado, U.S.A. 285

J. P. GUSTAFSSON and G. JACKS: Arsenic geochemistry in forested soil profiles as revealed by solid-phase studies 307

C. DE LAS CUEVAS and J. J. PUEYO: The influence of mineralogy and texture in the water content of rock salt formations. Its implication in radioactive waste disposal 317

D. L. HUSTON and D. J. PATTERSON: Zincian staurolite in the Dry River South volcanic-hosted massive sulfide deposit, northern Queensland, Australia: an assessment of its usefulness in exploration ... 329

G. CHIODINI, F. FRONDINI and L. MARINI: Theoretical geothermometers and P_{CO_2} indicators for aqueous solutions coming from hydrothermal systems of medium-low temperature hosted in carbonate–evaporite rocks. Application to the thermal springs of the Etruscan Swell, Italy 337

F. J. HUERTAS, J. CUADROS and J. LINARES: Modelling of potassium exchange in a natural, polyionic montmorillonite under hydrothermal conditions 347

B. HITCHON: Fluorine in formation waters, Alberta Basin, Canada 357

Corrigendum 369

NUMBER 4

Articles

OBITUARY: John Napier Andrews (1930–1994) iii

H. G. MACHEL, H. R. KROUSE and R. SASSEN: Products and distinguishing criteria of bacterial and thermochemical sulfate reduction 373

AG 10-6-J

L. I. WASSENAAR: Evaluation of the origin and fate of nitrate in the Abbotsford Aquifer using the isotopes of ^{15}N and ^{18}O in NO_3^- 391

S. R. POULSON, H. OHMOTO and T. P. ROSS: Stable isotope geochemistry of waters and gases (CO_2, CH_4) from the overpressured Morganza and Moore-Sams fields, Louisiana Gulf Coast 407

HU MING-AN, J. R. DISNAR and J.-F. SUREAU: Organic geochemical indicators of biological sulphate reduction in early diagenetic Zn–Pb mineralization: the Bois-Madame deposit (Gard, France) ... 419

A. MASUDA, K. SUGINO and K. TOYODA: Lead isotopic compositions in fault gouges and their parent rocks: implications for ancient fault activities 437

I. PLUTA and A. ZUBER: Origin of brines in the Upper Silesian Coal Basin (Poland) inferred from stable isotope and chemical data 447

W. J. HARRISON, R. F. WENDLANDT and E. D. SLOAN: Geochemical interactions resulting from carbon dioxide disposal on the seafloor 461

F. KING: A natural analogue for the long-term corrosion of copper nuclear waste containers—reanalysis of a study of a bronze cannon 477

Announcement 489
